Motorcycle Licensing Information

U.S. Army, Europe, has several requirements that must be met prior to operating a motorcycle in Europe. Drivers must present a completed AE Form 190-1T, a U.S. Forces identification card and a valid stateside or country license to the local Driver's Testing Station clerk for the specific class of vehicle; attend drivers orientation; and pass the international road signs, written, road and eye tests. Once this is complete, applicants must attend a four-hour motorcycle orientation

course unless already in possession of a German class 1, 1a, 1b, 4 or 5 license.

Experienced applicants who can provide proof of holding a previous license to operate the class of motorcycle for which they are applying must have a valid country, state or U.S. Forces command in Europe license for a motorcycle, pass a 30-question motorcycle test and a proficiency course. The 190-1T form must also be submitted within 30 days of arrival in Germany.

Novice applicants who have never been licensed, or cannot show proof of license, must complete motorcycle training at a German driving school at their own expense and after receiving the German license, apply to the local DTS for a USAREUR license in the appropriate class.

For info call the Stuttgart DTS at 430-8755/civ. 0711-680-8755.

Smallpox Vaccines Begin

President George W. Bush has ordered smallpox vaccinations for military personnel to begin because of concerns about possible bio-terrorist attacks. In the first stage of the smallpox vaccination program, Department of Defense smallpox response and hospital/clinic teams were vaccinated. The second stage mandates that all forces designated as mission critical, including deployed forces, forces stationed overseas, those expected to deploy and some emergency essential civilians and mission-essential contractors be vaccinated. In the third stage, other U.S. forces will be vaccinated as required. For info visit www.smallpox.army.mil, www.bt.cdc.gov/agent/smallpox or www.vaccines.army.mil.

Force Protection Travel Requirements

All Department of Defense military and civilian personnel must be briefed on force protection considerations that apply to their destinations and to the routes they plan to travel. Before leaving on any trip, always check government force protection Web sites for up-to-date travel advisories. These Web sites are www.state.gov/travel (criminal/travel advisories/warnings), www.cdc.gov/travel (types of diseases at that location) and www.odcsops.hqusaureur.army.mil (FP page, threat levels by country).

Wrecked Cars Require Customs Form

Prior to donating, selling or transferring tax-free personal property, such as a wrecked car, to a non-ID cardholder, service members need to remember to complete a "Permit to Transfer" (AE Form 550-175B) form. Completing the Permit to Transfer is necessary when U.S. service members, Department of Defense civilians and their dependents imported or bought the vehicle in a duty and tax-free status. It is essential for all U.S. personnel in Germany to get a permit to transfer before they sell or donate. Those who do not obtain the permit are often discovered when attempting to clear vehicle registration. German customs may also require you to prove what happened to the vehicle or pay the full tax due on it if you can't. More information on selling personal property in Germany is available online at www.hqusaureur.army.mil/opm/custom2.htm or by contacting the local military customs office.

Report Suspicious Incidents

Community members who encounter a suspicious incident are reminded to not commit themselves to anything and to ask for time to think over any offers. Remember all descriptions and details about locations, people, conversations, vehicles and license plates. Report the incident immediately by calling the Stuttgart Military Intelligence Office at 421-2206/civ. 0711-729-2206.

POV Long-Term Storage Rules

There are rules regarding storage of privately owned vehicles during extended deployment periods. Some POV storage procedures include: non-operational POVs will not be accepted; personnel deploying will conduct a joint inventory of their POV with a storage site custodian and complete two copies of DD Form 788; one complete set of keys for each stored POV will be signed for by the POV storage site custodian; after the POV is parked in the designated storage

area, the POV owner/agent turns in a key and the original copy of DD Form 788. The POV owner or agent will receive a copy of a claim information paper detailing their rights and responsibilities regarding the government's storage of their vehicle. To read the complete list of responsibilities, procedures for storage and pick-up procedures, visit the 6th Area Support Group Web site at www.stuttgart.army.mil. Click on 'community' then 'bulletin board.'

Space-A Privileges To Expand

The Assistant Deputy Undersecretary of Defense (Transportation Policy) has approved a one-year test to evaluate the expansion of Space Available privileges for dependents traveling within the Continental United States. The Department of Defense is going to conduct a test of the CONUS Space-A system beginning April 1.

During the trial period, dependents of active duty and retired uniformed service members will be allowed to travel Space-A with their sponsors within CONUS. Dependents must travel with the sponsor and will assume their sponsor's travel priority. Active duty members must be on leave to register for Space-A and remain on leave for the duration of travel.

Avalanche Danger In The Alps

Skiing this weekend? Heavy snow over the past two weeks has made ski conditions in the Alps the best of the season, but skiers must be aware of the effects of a large snowfall on a base of ice preceded by unusually warm weather: The new snow just doesn't stick well. The avalanche danger throughout the Alps is four out of five. Use common sense when skiing: Don't ski out of bounds, do ski in groups and travel smart. If the route you are considering puts you or your group in danger, go a different way. Access one of the following to check on the danger in the area you are visiting: Germany, www.bayern.de/lfw/lwd/; Switzerland, www.wsl.ch/slf/avalanche/avalanche-de.html; Switzerland Berner Oberland, www.wsl.ch/slf/avalanche/rb12-dec.html; Austria,
